SKIP THE QUEUE, ORDER ONLINE!

As a dental professional, we understand that time is precious. Ordering dental supplies is now so much simpler, quicker and easier! Skip the phone queue and place your orders with our fast and easy-to-use website: www.numedical.com.au

EXCEPTIONAL CUSTOMER CARE

We not only take pride in the quality of products that we supply to our customers, the team here at NuMedical always strives to deliver exceptional customer care, to ensure that all your needs and queries are taken care of. Please do not hesitate to give us your feedback, we love hearing from our customers! Email orders@numedical.com.au or call 1300 998 224. Our office is open from 9am - 5pm, Monday to Friday.

FAST, EASY AND SECURE ORDERING

You can order from NuMedical in one of three easy ways:

1. Call us on 1300 998 224 during office hours to speak with one of our friendly and knowledgeable Account Managers. Our Account Managers are committed to providing you with the latest product information and to answer any queries that you may have. Our office is open from 9am - 5pm, Monday to Friday.
2. Send your orders through to orders@numedical.com.au, and you will receive an Order Confirmation from one of our Account Managers.
3. Order online on www.numedical.com.au. It's quick, easy and secure!

SHIPPING AND DELIVERY POLICY

Once your order and payment have been processed, you will receive an email with an Order Confirmation from NuMedical Pty Ltd. Once your items have been dispatched, you will receive an email with your shipment tracking number. NuMedical Pty Ltd provides free delivery if your total order amounts to more than \$299.00 (inc GST). NuMedical Pty Ltd reserves the right to make changes to the freight-free policy without notice. All orders received prior to 12.00pm on a normal business day will be dispatched from our warehouse on the same day. Note: Same-day dispatch is subject to stock availability.

REFUND POLICY

NuMedical Pty Ltd offers "Money Back Guarantee" return on goods sold within 30 days from the date of purchase. To make a claim, please call us on 1300 998 224 or email orders@numedical.com.au to speak with a NuMedical Account Manager to arrange for a "Return Authorisation". A Return Label will be emailed to you within 24 hours. Please affix the Return Label onto the product. The product must be returned to NuMedical Pty Ltd in its original packaging, unmarked with all of its contents as shipped. NuMedical Pty Ltd can arrange for the product to be picked-up, however, the return freight cost will be at your own cost.

PRICING INTEGRITY

All prices in this product catalogue are current at the time of publication. We make every effort to maintain our everyday low prices, however, market conditions and prices of raw materials may affect our pricing. Prices would also need to be adjusted in the event of typo errors in this catalogue. We encourage our customers to view our latest pricings on our website: www.numedical.com.au

WARRANTY

To make a warranty claim, firstly check if the product comes with a product warranty guarantee. Warranty claims must be made within the specified time. To make a claim, please call us on 1300 998 224 or email orders@numedical.com.au to speak with a NuMedical Account Manager for assistance.

PAYMENT TERMS

All orders will have to be prepaid prior to delivery. NuMedical Pty Ltd accepts Debit, Visa and Master cards, and cheque payments. Please call us on 1300 998 224 or email orders@numedical.com.au to apply for a 30-day credit account. Credit applications are subject to credit approval.

PRIVACY POLICY

We will only use personal information provided by you for the purposes for which it was collected and we will not disclose your personal information to a third party, except when it is required to facilitate a service you have requested. We will remove personal information from our systems where it is no longer required. We ensure that your personal information will not be disclosed unless law requires it or to prevent or investigate suspected unlawful activity.

DENTAL DIAMOND BURS

PAGE 8 - 15

Directions of use:

- Note: NuMedical Dental Diamond Burs are non-sterile and are manufactured for dental use only.
1. The device is to be used on the instruction of, or by a dentist or other licensed practitioner.
 2. Clean and sterilise non-sterile burs in accordance with the validated procedure prior to first use and prior to each reuse.
 3. Do not force bur into the handpiece. In case of difficult access, check both handpiece turbine and bur and refer to handpiece instructions for troubleshooting.
 4. Do not use worn-out or dull burs.
 5. Do not apply excessive pressure on the bur as this could cause undesirable heat or may cause the bur to fail.
 6. Avoid removing the bur at too sharp an angle to avoid leverage and breakage.
 7. Carefully read package labels to ensure use of the appropriate device.
 8. Move the bur continuously when in use to avoid localised heating and/or damage to the bur.
 9. Maintain handpieces in good working condition to ensure maximum effectiveness of the device.
 10. Ensure the bur is fully seated and securely gripped in the handpiece collet prior to use.
 11. Always wear gloves when handling contaminated instruments. Refer to page 93 - 96 for gloves.
 12. Eye protection must be worn to protect against eject particles. Refer to page 111 - 112 for eye wear.
 13. Surgical masks must be worn to avoid inhalation of any aerosol or dust generated by the device. Refer to page 113 - 115 for masks.

Code #995909

Light Wire Cutter 0° Standard

Hardness: HRC 60-65. Designed to cut ligature wires or elastic rings up to 0.021" (0.30 mm). Can't be used for cutting archwires.

Code #995910

Light Wire Cutter 0° Long Handle

Hardness: HRC 60-65. Designed to cut ligature wires or elastic rings up to 0.021" (0.30 mm). Can't be used for cutting archwires.

Code #995911

Distal End Cutter Standard

Hardness: HRC 60-65. Designed to cut the long distal end of wires up to 0.021" x 0.025" (0.53 mm x 0.64 mm). It securely holds the cut part.

Code #995918

Light Wire Plier Long Handle

Hardness: HRC 60-65. Designed to bend archwires to make fine loops or spring loops.

Code #995919

Light Wire Plier with Cutter Standard

Hardness: HRC 60-65. Designed to bend archwires to make fine loops or spring loops. The middle part of the jaw is used for cutting.

Code #995920

Light Wire Plier with Cutter Long Handle

Hardness: HRC 60-65. Designed to bend archwires to make fine loops or spring loops. The middle part of the jaw is used for cutting.

Code #995912

Distal End Cutter Long Handle

Hardness: HRC 60-65. Designed to cut the long distal end of wires up to 0.021" x 0.025" (0.53 mm x 0.64 mm). It securely holds the cut part.

Code #995913

Distal End Cutter Flush Standard

Hardness: HRC 60-65. Cuts and holds wire distally flush to the buccal tube or bracket while reducing debondings. Wires up to 0.021" x 0.025" (0.53 mm x 0.64 mm).

Code #995914

Distal End Cutter Flush Long Handle

Hardness: HRC 60-65. Cuts and holds wire distally flush to the buccal tube or bracket while reducing debondings. Wires up to 0.021" x 0.025" (0.53 mm x 0.64 mm).

Code #995921

Heavy Wire Cutter Standard

Hardness: HRC 60-65. Designed to cut various Australian wires, NiTi wires and stainless steel wires up to maximum diameter of 0.030" (0.76mm).

Code #995922

Heavy Wire Cutter Long Handle

Hardness: HRC 60-65. Designed to cut various Australian wires, NiTi wires and stainless steel wires up to maximum diameter of 0.030" (0.76mm).

Code #995923

V Stop Plier

Hardness: HRC 60-65. Designed to make V stop along archwires to prevent any movement.

Code #995915

NiTi Cinch Back Plier Standard

Hardness: HRC 60-65. Designed to cinch back distal end of archwires to avoid causing injury to soft tissue. For archwires up to maximum diameter of 0.021" (0.53 mm).

Code #995916

NiTi Cinch Back Plier Long Handle

Hardness: HRC 60-65. Designed to cinch back distal end of archwires to avoid causing injury to soft tissue. For archwires up to maximum diameter of 0.021" (0.53 mm).

Code #995917

Light Wire Plier Standard

Hardness: HRC 60-65. Designed to bend archwires to make fine loops or spring loops.

Code #995924

Multi Function Plier

Hardness: HRC 52-55. Designed to bend, flatten and cut wires.

Code #995925

Torque Plier

Hardness: HRC 60-65. Designed to be used in pair to make torques on rectangle wires, thickness of tips: 0.050" (1.27mm).

Code #995926

Tweed Loop Plier

Hardness: HRC 60-65. Designed to make small loops, distal stops and Q loops on archwires up to 0.022" (0.56mm).

Orthodontic Pliers

Code #995937

Kim Plier

Hardness: HRC 52-55. Designed to bend multi-loop edgewise wires, with cutter on tips.

Code #995938

Nance Loop Bending Plier

Hardness: HRC 52-55. Designed to make vertical loops of different height along archwires, 3.0, 4.0, 5.0, 6.0mm. Wires' diameter up to: 0.022" (0.56mm).

Code #995930

Posterior Bracket Removing Plier Long Handle

Hardness: HRC 52-55. Designed to remove posterior brackets.

Code #995931

Weingart Plier Standard

Hardness: HRC 52-55. Designed to cinch back distal end of archwires to prevent injury to soft tissue. NiTi wires' diameter up to 0.021" (0.53mm).

Code #995932

Weingart Plier Long Handle

Hardness: HRC 52-55. Designed to cinch back distal end of archwires to prevent injury to soft tissue. NiTi wires' diameter up to 0.021" (0.53mm).

Code #995939

Bond Remover

Hardness: HRC 52-55. Designed to remove bond on the crown without any injury on enamel.

Code #995940

Three Jaw Plier

Hardness: HRC 52-55. Designed to make V loops and bend archwires. Wires' diameter up to 0.030" (0.76mm).

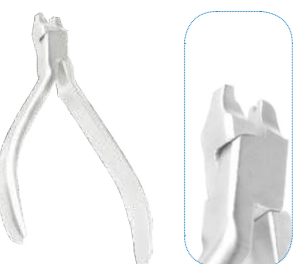

Code #995941

Omega Loop Bending Plier

Hardness: HRC 52-55. Designed to make fine Ω loops. Loops diameters: 0.063", 0.075", 0.10" (1.6mm, 2.0mm, 2.6mm).

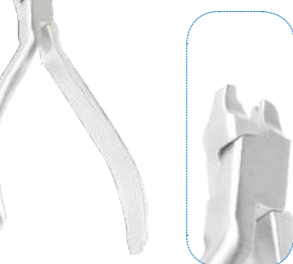

Code #995933

Crimpable Hook Plier Standard

Hardness: HRC 52-55. Designed to fix the crimpable hooks along archwires.

Code #995934

Crimpable Hook Plier Long Handle

Hardness: HRC 52-55. Designed to fix the crimpable hooks along archwires.

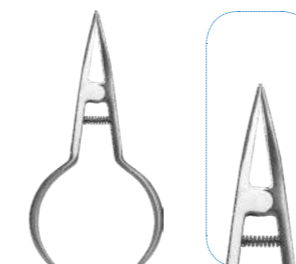

Code #995935

Loop Bending Plier

Hardness: HRC 52-55. Designed to make different small loops for multi-loop edgewise archwires. Loop diameters: 2mm, 3.2mm and 4.2mm.

Code #996146

Elastic Plier

Hardness: HRC 52-55. Designed to expand elastic separating rings before separating molar gap.

"BSA" Thermoforming/Coping Polypropylene Mouth Guard Material - SOFT

Made from a special formulated EVA plastic that is super soft and flexible. This material heats easily and conforms perfectly to the model. These custom-fit mouth guards allow for excellent oxygen intake.

*Note: To use, please remove the pink protective films.

- BPA Free
- Non-Latex
- Does not bond to acrylics
